Cables are available in 0.5m, 1.0m, 2.5m, and 5.0m standard lengths (005=0.5m, 010=1.0m, 025=2.5m, 050=5.0m). Custom length cables are also available.

Terminals starting with A are the lower row of terminals, B terminals are the upper row.

Follow your PLC Analog User Manual for proper shield grounding instructions.

Wiring for 4-Wire RTD is the same as 3-Wire RTDs with one wire left open.
